Boarding in the UK

“

Partner with ILG to unlock the potential of your student and provide them with an education that celebrates their individuality.”

A World-Class Education, Recognised Globally

British boarding schools are known for academic excellence, tradition, and high standards. Your child will receive a well-rounded education respected by top universities and employers worldwide.

Character Building and Independence

Living away from home helps children develop resilience, independence, and maturity, skills that will serve them throughout their lifetime. In our safe and supportive settings, students learn to manage their time, take responsibility, and grow in confidence.

An Internationally Diverse Community

UK boarding schools welcome students from around the world, helping them build lasting friendships and global perspectives. Our students develop cultural awareness and learn to collaborate across boundaries—preparing them for an ever-changing world.

Access to Rich Co-Curricular Opportunities

From sports and music to drama, debate, and outdoor education, the boarding experience is about far more than academics. UK boarding schools offer a wide range of enrichment activities that allow students to discover new passions and talents.
